

PARAS KAUSHIK

AI Engineer | Computer Vision | LLM | RAG | VLM Fine-tuning • +91 9215460007 • paraskaushik862@gmail.com • [linkedin.com/in/paraskaushik07](https://www.linkedin.com/in/paraskaushik07)

PROFESSIONAL SUMMARY

AI Engineer and Co-founder (QuietGradient) with 2+ years deploying end-to-end AI in Computer Vision, LLMs, VLMs, and RAG. Shipped production systems across EdTech, automated assessment, and recruitment – **a national-scale grading platform processing 300K+ answer sheets, CER 20→8 on handwritten OCR, and 80% lower grading costs**. Skilled in VLM/LLM fine-tuning (SFT, RFT, GRPO), agentic AI orchestration, GPU-efficient deployment, and full-stack AI products.

TECHNICAL SKILLS

AI/ML: Computer Vision, OCR, Layout Parsing, LLMs, VLMs, RAG, Agentic AI, VLM Fine-tuning (SFT, RFT, GRPO), NLP **Libraries:** PyTorch, TensorFlow, LangChain, LlamaIndex, FAISS, OpenCV, Hugging Face, YOLO, vLLM, Sentence Transformers, Pipecat

Deployment: FastAPI, Docker, AWS, GCP, RunPod (GPU), Vast.ai, Streamlit, CI/CD, Cloudflare

APIs: OpenAI, Gemini, IBM Watson, STT/TTS

PROFESSIONAL EXPERIENCE

Co-founder | QuietGradient (Flashr)

Feb 2026 – Present | India

- Building [Flashr](#) (currently in **closed testing** on Google Play), an **AI-native retention platform** for India's competitive exams (UPSC/JEE/NEET/GATE/CAT/SSC): **OCR-driven flashcard & MCQ generation** (Gemini Flash), **SM-2 spaced repetition scheduler**, and live **Duel Arena** – shipped end-to-end on **React Native (Expo) + Supabase** with freemium in-app subscriptions.

AI Engineer | Infutrix

Jun 2025 – Present | Mohali, India

GradeSmith – AI Automated Grading System

- Architected an end-to-end **OCR-based grading pipeline** processing **300,000+ answer sheets** across **20+ subjects**, deployed at universities including **CCSU** (on-ground deployment operations).
- Fine-tuned **Qwen-VL** for handwritten OCR with **struck-through/cancelled-text exclusion**, reducing **CER from 20% to 8%** on noisy student answer sheets.
- Built an AI-driven **grading platform** using **CV-LLM pipelines** with **rubric-aware partial-credit grading** and **explainable AI feedback** – cut grading costs **80%** (Rs. 2 → Rs. 0.4/page).
- Achieved **97.5% OCR accuracy** and scaled the production deployment to process **60 sheets/minute**.

Hirefl.ai – AI Recruitment Platform

- HR teams were losing hours to manual resume screening and first-round interviews, slowing down hiring pipelines.
- Built **Hirefl.ai**, pairing **LLaMA-based resume parsing & screening** with a real-time **STT/TTS voice interview engine** and automated scoring – cutting HR workload by **70%**.

AI & Cloud Computing | AICTE Edunet Foundation

Jul 2024 – Aug 2024 | Remote, India

- Built a **production-deployed conversational AI chatbot** using **IBM Watson Assistant** with intent classification, entity recognition, and scalable cloud architecture on IBM Cloud infrastructure.

Data Analyst | Dataplay

Jun 2024 – Jul 2024 | Remote, India

- Developed interactive **Power BI dashboards** delivering actionable business insights; led a cross-functional project team and drove **data-informed decision-making** for key stakeholders.

EDUCATION

B.Tech in Computer Science Engineering – MAIT, Baddi

Jun 2021 – Jun 2025

CGPA: 9.23

KEY PROJECTS

KAIROS – Multi-Agent AI Productivity Platform

Jun 2024 – Nov 2024

- Architected **KAIROS** – a modular, **multi-agent AI platform** unifying **7+ AI capabilities**: a fine-tuned conversational engine, real-time **STT/TTS voice assistant (PRINCE)**, OCR document intelligence, and multilingual translation.
- Accelerated knowledge workflows by **40%+** under an extensible agent architecture.

ScriptSeg – Multi-Stage Handwritten OCR Detection Suite

May 2025 – Jun 2025

- Trained specialized models for **character-level localization**, **word/space segmentation**, **line-level OCR**, and **cutting/strikethrough detection** – achieving **92% accuracy** on cutting detection.

ACHIEVEMENTS & LEADERSHIP

- AI Summit Delhi:** Showcased GradeSmith to 500+ leaders, winning recognition for innovative AI educational assessment.
- Smart India Hackathon:** Engineered Track-VAHAN, an IoT-driven vehicular accident detection and GPS/GSM emergency alert system.
- Ideathon First Place:** Pioneered an innovative, technically excellent Tongue Driven System (TDS) wheelchair, securing top honors.
